

# phase 3

Friends and Colleagues,

After spending 29 years in the San Francisco Bay Area as a protege and leader, I am embarking on a new challenge. Starting in June, I enter my career's "third phase" as an educator. I will be the Associate Professor of Practice leading Ball State University's Masters of Urban Design Program in downtown Indianapolis. In addition to teaching, I accepted an unconditional offer as a PhD candidate at Cardiff University's Welsh School of Architecture. I plan to maintain my active participation with professional and client communities.

My new mailing address as of June 20, 2009 will be:

Bruce Race, FAIA, AICP
